CURES AND COMFORT FOR THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,

LIQUOR CARBONIS DETERGENS

OR

Concentrated Alcoholic Solution of the

Constituents of COAL TAR

[Extract from the Lancet, Dec. 22, 1866.

LIQ. CARBONIS DETERGENS—We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, naphthaine, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

Mr Alfred Waddington.

Among those who will leave us to-morrow for the New Dominion and England is Mr Alfred Waddington, a gentleman who, since his first arrival in the Colony, has been associated with every scheme and enterprise having for its object the advancement of the country and the welfare of its inhabitants. Landing in Victoria early in 1858, Mr Waddington, at a time when others doubted, gave a solid proof of his faith in the permanence of the place by investing his means in the importation of a cargo of general merchandise, and by the erection of the first frame building, which may still be seen standing on what is now the northwest corner of Yates street and Waddington alley. From that day to the present, Mr Waddington's career has been one of untiring industry, enterprise and zeal in all that would contribute to the material progress of the country. Never faltering in his belief that the Colony is destined to become one of the most important appendages of the British Crown—through evil and good report—when many who owed to the Colony everything they possessed hastened to realize upon their investments and abandon our shores, Mr Waddington remained firm throughout and assisted with example and precept to guide us through the late severe commercial crisis, from the effects of which we are slowly recovering During the last nine years the name of Alfred Waddington has been associated with every great and good project that has originated here. The Fire Department still counts him, notwithstanding his age and infirmities, among its most useful and active members; the Gas Company owes its successful establishment mainly to his exertions; the Royal Hospital—where hundreds of the needy sons of every nation have found a home and kind treatment—has numbered him among its directors from its opening. The extension of Victoria harbor and the erection of the new bridges were due entirely to Mr Waddington's exertions. A warm advocate of the Free School system, he became the first Superintendent of Education under the Island Government. As a member of the Legislative Assembly from one of the most important constituencies, Mr Waddington will be remembered as an eloquent and consistent leader of the Opposition—generally successfully combatting such of the Government schemes with which he honestly differed; and many wholesome laws that since union have been adapted to the requirements of the united Colony were promoted and carried through the exertions of Mr Waddington. His latest and noblest conception was a project for the construction of a transcontinental wagon road through British territory Years ago—before even the boldest of Canadian statesmen had fairly entertained the scheme of confederating the North American Colonies under one strong central Government—the projector of the Bute Inlet Wagon Road was employed, at his own expense, in equipping and dispatching bodies of explorers who were charged with the duty of examining and reporting upon the practicability of constructing a road through the coast range of mountains to Cariboo. After a considerable outlay of time and money, the idea became a reality. The exertions of one of the exploring parties were attended with success. A feasible pass to the open country was discovered lying at the head of Bute Inlet, and the Inlet was ascertained to be the best natural harbor on the mainland between San Francisco and the North Pole. To demonstrate the practicability of this route, Mr Waddington undertook, by the expenditure of his own private means, to open the road through the valley of Homathoo River (a stream of considerable volume emptying into the head of Bute Inlet), and the work was progressing favorably towards its completion, when the news of the massacre of the workmen by Indians thrilled through the country in April, 1864. Not satisfied with shedding the blood of the working party, the savages destroyed all the movable property of the company, killed the animals and burned the cabins and storehouses, involving a loss of many thousand dollars to the enterprising projector and pecuniarily ruining him. Since that unfortunate period Mr Waddington has not been idle. After combatting the arguments of a Government systematically opposed to the fulfilment of this great enterprise—as it is to that of every project having for its aim the advancement of the country—Mr Waddington has at last secured a new charter and important grants of land; and the object of his visit to the East is to form a joint stock company, with capital sufficient to complete the first link in the Overland Wagon Road to the great gold fields of Cariboo, with the ultimate object of extending it to the base of the Rocky Mountains, where it will meet the working parties from the East. The route *via* Bute Inlet is the only feasible one for overland communication through British North America. The idea is a great and grand one. It may be that the good man who is about to leave us to prosecute his philanthropic design is destined not to live to see it consummated—it may be that he will not be spared to return to the scene of his sacrifices and his triumphs; but if the good wishes of his fellow colonists will effect anything, he will not only live to see the great Overland Waggonroad—the proudest monument that can be erected to his memory—an accomplished fact, but will live to cross the continent in the first mail coach.

The Catholic Church and the Death of Maximilian.

[From the Journal des Desbats, July 20]

The Pope wept when he heard of the tragic fate of Maximilian, and caused masses to be chaunted for the repose of his soul. We cannot doubt but that the tears and prayers were sincere, but we believe that his Holiness mourned for a sinner rather than for a victim. The Church has not forgiven the Emperor of her own making for having deceived her fondest hopes. She had deputed Maximilian to a lost country, there to establish theocracy; and when the unfortunate prince saw the elements he was compelled to use in the reconstruction of the throne and the altar, he shrunk back dismayed. As was said to him, he had contracted the disease of Liberalism in Italy; in Austria, he had sown the seeds of "Josephism," and in France and in Belgium he had become acquainted with the Civil Code. After that, nothing could be expected of him. The rupture with the Church was immediate and violent. We remember the remonstrance of the bishops and the censure of Rome. It was but yesterday we read the sharp reply that Maximilian addressed to the Mexican bishops, when he spoke as follows :

"You must admit, venerable prelates, that the Mexican Church, by a deplorable fatality, has meddled too much with politics and temporal affairs, and neglected too persistently the Catholic education of her children. It is true that the Mexicans are pious and good, but the larger portion of the people are not yet Catholics in an evangelical sense. This is not owing to its own faults, but to the negligence of others. The Mexicans must be enlightened, the sacrament must be administered to them as it is ordained in the Evangelists, gratuitously. You may doubt, if you will, the sincerity of my faith in the Catholic religion, but all Europe has long known my opinions. Still, however good a Catholic I may be, I shall also be a just and liberal prince."

This assertion embodied the Archduke's sentence. The modern Church does not recognise for a man to be both Catholic and Liberal; nothing can be in more direct opposition to the spirit of its syllabus. In the eye of the Church Maximilian has paid the penalty of his errors, and his death is but the atonement of his treachery. Good and merciful and humane, pious and charitable though a man may be—and Pope Pius IX. is really pious and charitable—a doctrine is pitiless. Laws, and not men, are alone to be accused and held responsible.

NEW YORK, Oct 16—The *Post's* Washington special says members of the judiciary committee in favor of impeachment are confident the project will receive the approbation of a majority of the House. They will press the subject early in the session.

Europe.

LONDON, Oct 15.—Jim Mace, the pugilist was arrested in bed last night, and put under bonds to keep the peace. He was about to fight the Irish giant for the championship. It is asserted that the pugilists were to cross to France or Ireland and fight. Some are of the opinion that Mace sold the fight purposely.

There are wild rumors that the Fenians are planning to seize the person of Queen Victoria at Balmoral. Little credence is given to the report, but precautionary measures have been taken and the household guard at Balmoral are doubled.

LONDON, Oct 15—Evening.—The Fenian alarm is spreading. The Government are in receipt of many dispatches announcing the possible plans of the brotherhood. Troops and gunboats have been dispatched to Ireland and the entire western coast guarded with extraordinary vigilance.

The news from Italy to-night is very important. The entire press of Italy are almost without exception in favor of the seizure of Rome by the Government. The strength of the party of action increases hourly, and recent successes have given them new courage. Sharp fights have occurred at various points in the province of Viterbo, in all of which the insurgents were successful. The Pope has called an immediate meeting of the Cardinals to consider the situation.

FLORENCE, Oct 15th.—Last advices from the Papal forces say they are falling back on Rome.

PARIS, Oct 15.—It is reported that Marshal Narvaez, the Spanish Premier, has offered Napoleon the assistance of Spain in sustaining the temporal power of the Pope.

A Riot in a Church.

The Prescott (C. W) *Telegraph* tells the following : A most disgraceful scene occurred in the Catholic Church in this place on Sunday last, arising from the animosities engendered by the late election. Father Roche, the priest, who is well, if not favorably known, is a Shanly man, and on the Sabbath previous, in an electioneering speech of about an hour, which would have done him credit on a week day, and in a less sacred place, exhorted his congregation to support, by their votes, the Tory candidate. On that occasion, about half his congregation left in disgust, but were followed out of doors by vulgar, abusive epithets hurled after them by the enraged priest, This affair, on the eve of election, created excitement in the town, but was entirely eclipsed by the proceedings of last Sunday. Father Roche, although his party had won the election, could not be satisfied without pouring a broadside or two into the ranks of those who had dared to think for themselves and according to their convictions of duty. He accordingly commenced another political sermon, which shortly degenerated into gross personalities, which were the immediate cause of raising a row which would have disgraced any properly conducted liquor saloon. He singled out his victim for the sacrificial altar a respectable gentleman and member of the church, J. Gray, alluding to him in such a pointed manner that no one could fail to understand who was the person meant, and insulting him by a coarse reference to an unfortunate brother, once generally admired for his character and abilities, but now under treatment, in consequence of an injury sustained to his spine, in the Provincial Asylum. This cruel attack aroused Mr. Gray's indignation, and he advanced up the aisle in front of the priest and spoke nearly as follows : "Father Roche, I respect the sacred dignity of your priesthood; I respect the sacred house of God ; but dare you attack my dear, dying brother. Attack me, if you will, but spare him." Enraged at this bold and unexpected movement, the priest called for a man to put Mr. Gray out, but no one responded, as nearly the whole congregation was in sympathy with Mr. G., and at heart endorsed his conduct. Their action was a proof of this. The priest then appealed to the soldiers present to put him out, but the soldiers did not obey orders. Mr. Gray then continued, substantially as follows: "Father Roche, I appeal to this congregation to say whether you have not scandalized them by your conduct and disgraced the ministry. And, if so, I ask them to mark their disapproval of your conduct by leaving the church." At this point indescribable confusion reigned. Women and children wept and screamed, while all rose to leave. Two men, seemingly with hostile intent, approached Mr. G., but an overpowering number of his friends and sympathizers rushed to the rescue. One of the congregation was struck by a supporter of the priest, but the assailant was soon pitched out of doors. Mr. Gray's mother was present and bathed in tears at the priest's remarks and the disgraceful riot which ensued. As the congregation was leaving, Father Roche exclaimed : "Oh, how I sympathize with that young man's mother's feelings. If I do not scourge him, God will."

Miss Arnot's Benefit.

The presence at the theatre on Wednesday evening of a large audience, composed of our most respectable citizens, was an unmistakeable mark of the public esteem in which the accomplished and worthy young lady, who then bade adieu to the romantic associations of the stage to assume the real duties of a wife, is held by our public. The first piece presented was peculiarly *apropos* to the occasion—being the beautiful domestic drama of "The Momentous Question," in which Miss Arnot took the character of a young wife who struggled successfully with a heartconsuming affection for a worthless lover as opposed to the duty she owed a noble and affectionate husband. The last scene, in which the wife eloquently appeals to the man she loves and the man she should love to become once more friends—when she recalls the scenes of their youth in the pleasant English village, and beseeches them with tearful earnestness to bury their feud and embrace each other, was rendered so effectually as to draw tears to many eyes; and when her womanly eloquence having effected its aim, the men joined hands, and the girl fell senseless at their feet, a burst of applause that shook the building rang out. As Robert Shelley, we thought that Mr. Brown fully satisfied the previous encomiums that have been passed upon his acting; as an *amateur*, Mr. Brown has no superior in the line of character he represents. J. Stewart, as James greenfield, barring the tragic tone and attitude which he occasionally assumed, was very correct and effective in the finer passages Mr. Callingham, as Union Jack, the village scamp, was more than usually comic. Whatever Callingham attempts he does well; he is a natural actor, and his appearance in every scene was the signal for an outburst of laughter and enthusiasm. "Miss Helena Montague," who represented Fanny Dossett, made a good waiting maid; her "get up" being very good, and her "mannerisms" well delivered. Mr. Griffin, Mr. Barnett and others contributed greatly to the success of the piece. At the fall of the curtain, the beneficiary, Mr. Brown and Mr. Callingham were called out and loudly cheered. Miss Soledad then gave a chaste and pretty Spanish dance with castanets, which was *encored*, and was followed by Mr. Callingham with a song, which he gave with much spirit and effect, though laboring under a severe cold; he was also *encored*. The orchestra, which was directed by Mr. Palmer, having played an overture with much taste, the popular farce of "Sketches in India" followed Miss Arnot, as Sally Scraggs, was excellent—the stage-struck damsel being admirably represented. Mr. Charles Clarke, as Sir Matthew Scraggs, is deserving of more than a passing notice,—he merits a higher encomium than has yet been paid his acting for the correct, masterly and amusing manner in which he represented a rich old *parvenu*, fond of snubbing and humbling his conceited wife — Lady Scraggs, who was represented by the inimitable Callingham with as many airs and as much grace as though he had been the original Lady Scraggs herself. Mr. Brown, as Tom Tape, created great merriment. Mr. L. Franklin, as Count Glorieux, played the character as well as we have seen it represented here; but his performance, we think, fell short of the standard of excellence with which he has heretofore invested the *rolcs* entrusted to his care. Miss Soledad, as Poplin, looked and acted charmingly. Mr. Blair, as Milton, seemed laboring under a severe attack of nervousness—his voice being audible thirty feet distant from the stage. Mr. Keast, as Dorrington, was in good voice; but the character was one in which he had no opportunity of displaying ability. At the close of the performance, Miss Arnot and Mr. Brown, in response to loud calls, came before the curtain, and were received enthusiastically. We congratulate the Victoria Amateur Dramatic Club upon the great success that has attended their efforts to add to the enjoyment of our citizens, and to present a substantial testimonial of esteem to a worthy and talented young *artiste*, for whose happiness in the new sphere of life she has been called to fill we earnestly hope.

A GREAT BILLIARD CHALLENGE FROM DION—Mr Joseph Dion, the Billiard Champion of America, has challenged John Roberts, the English Champion, to play three games, English, French and American, to be played in England, France and America, for $10,000 in gold, each, and the Championship of the world. The Englishman cannot well decline this offer.

New Books.

"POEMS;" by CHARLES WARREN STODDARD. *San Francisco: A. Roman & Co.*—The author of this work is a young Californian who has wooed the muse with some success. The book before us contains several poems of merit, which promise the author a career of eminence in his profession. The work, which contains several well-executed illustrations, is essentially local in its character and should meet with ready sale throughout the coast. For sale by T. N. Hibben & Co., Victoria.

"THE PROGRESS OF ENGLAND."—*Edinburgh: William P. Nimmo* — The work commences with a poetical essay on the progress and greatness of England and concludes with notes upon the future Government of the Empire so as to insure its permanency and greatness. The author espouses the grand idea of organising the British Empire in Federal groups and dependencies, which "cannot much longer be safely deferred." A plan of organization is proposed by which the Colonies would be divided into four sections. Speaking of British Columbia (the work was published in 1866) the writer recommends that the Russian possessions on the coast of British Columbia should be purchased by the British Government. Uncle Sam having, meanwhile, forestalled us in the bargain, our chance of purchasing the territory is quite remote There are other points in this truly valuable work to which we shall again take occasion to allude.

GOLD IN THE SCOTTISH HIGHLANDS.—A correspondent states that gold has been found in various parts of the Highlands by a gentleman who has had many years' experience at the gold diggings in Australia and New Zealand. He states that the metal was found in fourteen or fifteen different parts of the country, and that he believes there is gold, more or less, to be found along the boundaries of Argyleshire and Perthshire, and all the way from Glenfine to the head of Glenetive. He has also found lead, copper, silver, and other ores.

METHODIST SUNDAY SCHOOL.—The annual anniversary in connection with the above school will take place on Sunday and Monday next at the Wesleyan Methodist Church. On Sunday morning, at 11 o'clock, a sermon will be preached by Rev. Mr. Browning, and anthems will be sung by the scholars. On Monday evening a number of recitations, dialogues, &c., will be given, together with singing. A cordial invitation is extended to all to attend.

MAN SHOT.—A man named George Mitchell was shot last week at Comox by an Indian. The body was brought down to Nanaimo and buried there on Friday last It is said deceased fired three times at the Indian first, and it is thought the Indian took the pistol and fired in self-defence. The matter is believed to have originated from drunkenness.

BUTTER—We notice that fresh butter has reached 65 cents per pound at San Francisco. Duty and freight paid it cannot be laid here at a less rate than 85 cents. This allows a large margin to our farmers for profit, and should encourage them to increase the production of butter.

PLANKS OUT—Several planks are out of the bridge across the ravine near the Bridge Tavern, opposite Mr Finlayson's residence, and present an opening for any enterprising man who wishes to lose his life by falling through.

VESSEL UP—Millard & Beedy have placed the fine bark Ava on the berth at San Francisco, to sail with freight for Victoria within three days after the arrival at the former port of the California.

SHIPMENT OF IRON—The steamer California will carry away about 240 tons of bar and other iron, purchased here for speculative purposes on orders for San Francisco.

ADMITTED TO BAIL—G. T. Smith yesterday gave bail in the sum of $5000 to appear at the Court of Assize to answer the charges made against him and was released.

THE sailing of the mail steamer has been postponed till Saturday, at 2 o'clock. She will have about thirty passengers and a full freight.

ADVERTISING.—A new art, says the *Review*, has lately arisen in London. The streets are now paved, not with gold, but with advertisements. The flowers of language now blossom under our feet. Just as geologists read in the various strata the evidences of plesiosauri and megalotheria, so now we may read the evidences of barbers and photographers. Shakspeare saw sermons in stone, but we now see advertisements in them. The stones, according to the fable, followed Orpheus; but now, judging by the verses, Orpheus follows the stones. Honor to whom honor is due. A clown of Drury Lane is said to be the inventor of this new method of advertising.

Exciting Rescue of Five Ladies.

A few days since a party of five young ladies were bathing at Newquay, Devon, when they were carried out of their depth by the sudden rising of the tide and the strong ground sea that was running at the time. They succeeded in getting upon a rock surrounded by deep water, on which a strong flood tide was running. The father of some of the party succeeded in getting three of them over the first channel to higher rocks, though he was twice swept away by the current while swimming with his younger daugeter. The remaining two had become so much frightened that they could not move, and they certainly would have been lost had not their condition been seen by Mr. W. E. Mitchel, who happened to be passing at the time. He rushed into the water, but not being able to reach them he immediately ran for assistance, and ordered some boats and the rocket apparatus to be taken round to their rescue. Mr. Martyn, of Truro, and Mr. W. Hawkey, jun, of Newquay, who were bathing near at the time, heard the screams also, and ran to their assistance. Meanwhile the three who thought themselves safe found that a wider and deeper channel separated them from the mainland, and for some time they were in as great danger as the two who were left behind. By this time several persons had assembled, and Mr. R. W. White, of Newquay, with great intrepidity threw off his clothes and swam to the assistance of the two ladies who were furthermost from the land, and succeeded in keeping them on the rock in spite of the sea which was breaking frightfully over them. One was washed off, but he succeeded in catching her by the hair, and drew her again to the rock, which was now covered with water. By this time other assistance arrived, and Mr. Lionel L. Brett 2nd West India Regiment, and Mr. Henry Hicks, principal officer of her Majesty's Customs, Newquay, swam out to Mr. White's assistance, and by the aid of a rope which was brought in a few minutes after happily brought them all safe to land. Two of the ladies were in such an exhausted condition as to be utterly unable to make any effort to save themselves. The boats came round, but owing to the strong sea running at the time could not come near. In ten minutes after all were landed the rocks all round were in a boiling surf.—*Times.*

A Case of Mayhem.

Under this caption the New York *Evening Post* thus discourses concerning the name of the New North Pacific Territory:

We have acquired from Russia a roomy piece of real estate, which is destined, doubtless, to become a well populated State. Whether our speculation is a good one, and the rise in northern lands will compensate for the price paid, has been discussed sufficiently; what we now want to know is what the new territory shall be called. It needs a name; let it by all means have a good one, well sounding and appropriate. There is a wide choice from names of scenes memorable in our late great struggle—names cherished by all who have labored for our undivided nationality. Doubtless these would be acceptable enough; but in this legion of honor choice is difficult and uncertain; and further, they lack in some degree appropriateness.

The State Department has semi officially announced a selection, and has mentioned the new territory as Alaska, after the peninsula which is its great natural feature, which Guyot mentions among the great peninsulas of the western continent. The peninsular of Alaska is a striking natural feature of the North American continent, and it is one geographically remarkable in the world. Being the extreme western point of the continent, to us whose motto is "Westward, ho!" it is symbolical of the march of American independence and enterprise, bounded only by the ocean. Here at last, on the very western land's end of the world, we plant our flag. American daring can gain no possession further towards the setting sun. Alaska, then, let it be—the name is euphonious, appropriate and suggestive. But the State Department should spell it rightly. They have written it "Alaska" instead Aliaska. There is not much harm done—it is not murdered entirely—it has only lost an *i*. Diplomatists here and abroad have had several bad spells lately, and may not be entirely over them,

LIVING BY HIS WITS.—According to his history, he had commenced life with £6,000 a year and a commission in a crack cavalry regiment. "But," as he used to say with the utmost gravity, "I made the running too early in the race, and could not 'stay' with the other horses. In six years I had sold every acre of land, every pound of Consols, and had run by the wrong side of the post to the tune of £12,000. I sold out, and the price of my troop paid half my debts. I went through the court for about £6,000, and then set to work as a private gentleman. I lived a little by betting, a little by whist, a little by billiards, a little by a few fivers and tenners that I 'borrowed' from friends and relations when I was very hard up. So long as I kept to what I understood, I got on well enough, but the devil tempted me to set up as a wine merchant, and in one year I lost—that is, I owed, for I had no losses in trade—£1,000, and I then went through the court a second time. How did I lose the money? I'll tell you. I used to get, say, £300 or £400 worth of wine, giving three months' bills to the importer for what I bought. When my customers paid me I spent the money, and did not meet my engagements. The wholesale wine merchants got angry; one of them arrested me; and I had to go through the court. I was sent back, and had to remain six months in this hole. I then set up as a coal merchant, but made a mess of that; for I found that I paid higher for the coals I bought than I could retail them for, even if I had sold them by the sack out of a hand-cart. So I had to go through the court as a coal merchant. Since then I have been a promoter of companies, and that was the jolliest game by far. Why, I had at one time a matter of nearly £4,000 to my credit in one of the city banks. But the times all went bad, and I was sued right and left by those who had taken shares in the concerns I had 'promoted,' and so I was arrested, and here I am."—*Dickens' All the Year Round.*

NEW BRUNSWICK.

A fire broke out in some wooden buildings in the rear of the City Hotel, Fredericton, which destroyed the hotel and the large block of buildings fronting on Queen street and the Phœnix Square, including Mr C W Westmore's office, the printing office of Mr C Lugrin, the office of Dr Dow, the store of Mr Guion and various other stores, dwellings and buildings.

We regret to learn that the Lieutenant Governor received severe but not dangerous injuries at the fire in Fredericton on Saturday morning. In his zeal to render assistance and to discover where help was most required, he approached one of the burning buildings, and while there an explosion of oil or other combustible took place, scattering billets of wood and brickbats in various directions and with great force. His Excellency received a severe blow on the shoulder from one of the bricks, but as before stated, it is not serious. This prevents his attendance at the opening of the Rifle Competition, and it may be that he will be unable to attend at any time during the week, which is much to be regretted.—*Globe.*

NEW BRUNSWICK FISHERIES—Hon P. Mitchell, Minister of Marine for Canada, has appointed Commissioners to enquire into the condition of the New Brunswick fisheries. "Mr Wm. Henry Venning is empowered to examine and report upon the condition of such of the rivers and shore fisheries as have connection with the harbours on the Bay of Fundy, and the rivers flowing into them, and also the head waters of the Miramichi. Peter Milles, Esq, Barrister, of Chatham, is entrusted with a similar task in connection with the North Shore harbours, rivers, &c, so much of the head waters of the Miramichi as is reserved for Mr Venning excepted. Mr Stevens, Fishery Warden, will supply a report in connection with the fisheries at Grand Manan."

The potato-rot made its appearance this year earlier than usual in some parts of the Province; and it is now very general throughout the country—*St Johns Globe.*

Total amount of Real Estate taxed in St. Johns according to published list $7,881,000; personal property $6,687,000; Income $1,346,640.

The Greatest Family Medicine of the age

Taken internally, it cures sudden colds coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhœa and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. IT IS A SURE REMEDY FOR AGUE AND CHILLS AND FEVER

HOLLOWAY'S OINTMENT AND PILLS—Skin Diseases—It is acknowledged by all medical men that our well-being depends in a large measure on the natural action of the skin. Every precaution, therefore, should be adopted to keep it in a healthy state, or, if already diseased to get it right. Holloway's Ointment may be relied upon for curing all cutaneous diseases It arrests inflammation, removes scurvy, heals ulcerations, obliterates blemishes, and restores elasticity and softness to harsh skins. It overcomes all obstructions of the pores and promotes general perspiration. No scorbutic or scrofulous subject will be disappointed in the result, if Holloways Pills and Ointment be used according to their accompanying instructions, which contain full information for self treatment.

WEAK STOMACH, OPPRESSION AFTER EATING, &c.—Indigestion takes innumerable shapes. Sometimes the stomach becomes so sensitive that it rejects even the simplest food; and in other instances, digestion is so painful that the patient is afraid to indulge the appetite. It is in cases like these that the tonic properties of BRISTOL'S SUGAR-COATED PILLS are most strikingly manifested. Mrs. Margaret McElroy, of Troy, New York, testifies that for five years she was unable to digest solid food—taking nothing but jellies, rice, and arrow-root—and even these caused her so much uneasiness, that she was obliged to limit the quantity to a couple of ounces, three times a day. She was terribly emaciated, and, to use her own words, "hardly cared to live." After having tried more than twenty modes of treatment, she at length commenced taking BRISTOL'S SUGAR-COATED PILLS, and she states the result as follows: "I am thankful to say that I am quite well. I eat heartly, sleep comfortable, have recovered my flesh, and feel no pain. All this I owe to BRISTOL'S SUGAR-COATED PILLS, and I earnestly recommend them to all who suffer from weak stomach. *They are sure.*" They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood BRISTOL'S SARSAPARILLA should be used in connection with the Pills. 411

INDOLENT SORES.—Vitality is so weak in some systems, that any ulcerous diseases with which they are afflicted, lapse almost immediately from the acute or inflammatory phase into the chronic condition, becoming sluggish and indolent. But they are not the less dangerous on that account, while they are much more difficult to deal with. In no class of cases has BRISTOL'S SARSAPARILLA been administered with more signal success than in these. It supplies to the system and the constitution the vigor necessary to fight the disorder, while its antiseptic properties exercise a direct and most beneficial effect upon the sores. It is important to use BRISTOL'S VEGETABLE PILLS at same time with the Sarsaparilla, as they carry off from the system depraved and vitiated humors set free by the Sarsaparilla, and in this way hasten a cure. 508

ENDURING POPULARITY.—If ever a luxury possessed the elements of enduring popularity, that luxury is MURRAY AND LANMAN'S FLORIDA WATER. Its freshness, its purity, its delicacy, its unchangeableness, its wholesomeness, and its disinfectant properties in the sick-room, place it far in advance of every other perfume of the day. No other toilet-water is like it; nothing can supply its place; no one who uses it can be persuaded to use any other perfume. Hence the amazing rapidity with which its sales increase. It is so far superior to all other perfumes of this hemisphere that it may be said to have no second: it stands alone, and after being thirty years before the people, is now making more rapid progres than ever before. 521.

Answer to G. Wilson, of Cariboo.

I WAS MUCH SURPRISED AT noticing a Challenge from Mr G. Wilson to fight me for from $1 00 to $500. I think he and his friends must be aware that I was loser on the last fight; but if Mr Wilson or his friends want satisfaction I will be most happy to make a fresh match for any amount not less than $2000—the fight to take place within 100 miles of Victoria—and I will allow him the same amount he allowed me for expenses. The person who talked so much of fighting the winner in my last battle can be accommodated on the same terms.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER OIL

RIMAULT'S SYRUP OF IODIZED HORSE RADISH

This syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior it cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and other persons fatigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWDERS OF ALKALINE LACTATES,

BY BURINDU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels, constipation, jaundice, and complaints of the liver and loins.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertiginous dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly acrimoniousness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been worn to. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—'Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.'

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.' From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I mainly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury, London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit WITHOUT THE LIABILITY of the Mutual System.

The participation in profits has been most liberal; Should claims arise before the next investigation, a prospective bonus of nearly 1¼ per cent. is allotted
